

ProBreeder Queen Mum 120 g | 120g

Feeding-related support in times of high energy requirements with simultaneous grumbling

Product number	630785
Weight	0.12kg
Length	67mm
Width	67mm
Height	119mm

Product description

Complementary feed (powder) for bitches

For feeding-related support in times of high energy requirements with simultaneous grumbling, e.g. in the puerperium

In the postpartum period with newborn puppies, many bitches turn into spoiled divas - and that is their good right. Unfortunately, they often refuse their usual feed, eat only treats or even fast. Many bitches may also refuse to leave the whelping box and their puppies, which then inevitably means 'breakfast in bed', as the bitch has a significantly increased basal metabolic rate in the weeks following birth, which needs to be taken care of.

Together with breeders, cdVet has developed **ProBreeder Queen Mum**, a high-calorie smoothie. **ProBreeder Queen Mum** replenishes the mineral balance after birth with valuable ingredients, provides the necessary energy and at the same time revitalizes in case of exhaustion.

Expert tip: The smoothie can either be licked up from the bowl by the bitch herself lying in the whelping box or fed directly into the bitch's mouth using a syringe (100 ml) if she does not want to eat.

Composition: maerl, amaranth, banana powder, sweet whey powder, zucchini, dextrose, broccoli, malt rootlets, Dead Sea salt, seaweed meal, grape pips meal, brewers' yeast, brewers' yeast cell walls (MOS), moringa, spirulina, xanthan

gum, green tea

Analytical constituents: crude protein 11.2%, crude fat 1.9%, crude fiber 4.9%, crude ash 21.5%, calcium 5.77%, phosphorus 0.31%, magnesium 0.57%, sodium 1.37%

Feeding recommendation: Small dogs (1-10 kg): 5 g/25 ml liquid. Medium-sized dogs (10-25 kg): 10 g/50 ml liquid. Large dogs (>25 kg): 20 g/100 ml liquid. 1 tsp. is ca. 3.5 g. Preparation as a smoothie: Mix the powder well with the liquid until there are no more lumps. Generally, lukewarm water is sufficient for mixing. If you have problems with acceptance, you can also use bone broth, yoghurt or similar.

Product properties

Phase of life	Adult, Seniors
Feed Profile	High Energy, Mineralstoffe / Spurenelemente, Gemüse
Composition	Xanthan, Brewer's yeast, Grape seed flour, Amaranth, Spirulina, Süßmolke, Algae lime, Moringa, Dextrose, Broccoli, Malt germs, Dead Sea salt, Green tea, Algae, Zucchini, Banane
Time frame	Immediate
Time of application	After Excitement and Stress, Nach Geburt
Special Requirements	Zucht, Leistung, Pregnancy, Antriebslos, Refusal to feeding
Area of Application	Internal
Animal categories	Dogs
Product type	Supplementary feed
Product form	Powders
