Product number	630730
Weight	0.12kg
Length	67mm
Width	67mm
Height	119mm

Product description

Complementary feed (powder) for bitches

Feeding-related support to regulate the bitch's hormonal system in the event of false pregnancy and disorders of the natural heat cycle

ProBreeder Milk Stop can have a regulating influence on hormonal events and can naturally and gently control problems with heat and the occurrence of false pregnancies without the need for castration. Through its influence on prolactin, the hormone responsible for milk production, it can reduce the flow of milk and bring calm and relaxation to stressed bitches. The combination of valuable herbal ingredients makes **ProBreeder Milk Stop** a natural support for hormonal imbalances and their consequences, e.g. ovarian cysts, which can often lead to infertility.

Composition: monk's pepper fruit, green oat, rose hip hucks, brewers' yeast cell walls (MOS), wheatgrass root, milk thistle herb, raspberry leaves, wild pansy herb

Additives/kg: Technological additives: bentonite (1m558i) 34 g, clinoptilolite of sedimentary origin (1g568) 20 g. The total amount of bentonite must not exceed the permitted maximum level in complete feedingstuff of 20000 mg/kg of complete feedingstuff. Total quantity of clinoptilolite of sedimentary origin from all sources shall not exceed the maximum content of 10000 mg/kg.

Analytical constituents: crude protein 9.3%, crude fat 4.4%, crude fiber 23.0%, crude ash 8.8%, calcium 0.75%, sodium 0.1%, phosphorus 0.26%, ash insoluble in HCl 4.5%

Feeding recommendation: Mix 1 g/10 kg body weight with the feed daily. 1 half tsp. corresponds to ca. 1 g. Start feeding at the first signs of heat and continue for approx. 3 months until estrus has subsided. If the bitch suffers from hormonal disorders (e.g. too short heat intervals), permanent feeding may be necessary.

The simultaneous oral use with macrolides shall be avoided.

Product properties

Product type	Ergänzungsfuttermittel (Pulver)
Area of Application	Fütterung
Phase of life	Erwachsener, Senior
Special Requirements	Läufigkeit, Scheinschwangerschaft, Fruchtbarkeit, Zucht, Hormone
Feed Profile	ohne Zusätze, getreidefrei, zuckerfrei
Composition	Mönchspfeffer, Grünhafer, Hagebutte, Bierhefezellwände (MOS), Quecke, Mariendistel, Himbeere Stiefmütterchen, Bentonit , Klinoptilolith
Animal categories	Dogs
