Weight	0.2325kg
Length	62mm
Width	62mm
Height	137mm

Product description

Complementary feed (liquid) for bitches

Energy supplier for the nutrition-related support of lactating bitches during puppy rearing

During pregnancy, birth, and rearing, the dog's body performs at its best and therefore needs the best ingredients in its feed. This is why we offer **ProBreeder Maternity Fuel**, a premium BARF feed supplement made from a variety of selected oils. The carrier oil used forms the basis of this purely natural feed oil with all the important omega fatty acids. The added functional oils ensure an optimal, balanced supply of essential fatty acids and can stimulate milk production. At the same time, active ingredients from these oils also reach the puppies via their mother's milk.

This combination of natural ingredients makes **ProBreeder Maternity Fuel** a highly concentrated source of energy and also a source of significant vital substances from several selected oils in one product. The bitch's physical condition is supported by these high-quality oils and excessive coat loss, f.e. can be slowed down.

Expert tip: **ProBreeder Maternity Fuel** is also an ideal BARF starter oil for puppies when they are weaned, as they are already accustomed to the ingredients through their mother's milk. In addition, some ingredients can have a beneficial effect on the digestive tract when switching to solid food.

Composition: linseed oil, evening primrose oil, wheat germ oil, argan oil

Additives/kg: Flavouring compounds: fennel oil 10 g, star anise oil 10 g.

Analytical constituents: crude protein 0.3%, crude fat 99.6%, crude fiber 0.5%, crude ash 0.4%
