The natural treat for rabbits, hamsters, guinea pigs, chinchillas, and other rodents

Product number	355
Weight	0.4kg
Length	98mm
Width	98mm
Height	127mm

Product description

Feed material (pellets) for rodents

The treat in bio-quality for a healthy and daily reward

TinyHerbs Organic HerbGreen Pellets are a healthy alternative to the often offered bread rolls/bread. Free from cereal starch, additives, and colorants, they consist of various green fodder plants (grass, herbs, and legumes) from controlled organic cultivation.

Thanks to their large chunky shape, **TinyHerbs Organic HerbalGreen Pellets** provide an excellent opportunity to satisfy the natural need to nibble and give teeth a good rub down. In addition, your beloved rodent receives a high-quality, raw fiber-rich supplement to its daily food.

Expert tip: To prop up your rodent after illness or surgery, we recommend soaking **TinyHerbs Organic HerbalGreen Pellets** in warm water and mixing in **TinyHerbs MicroMineral**. This will provide your pet with all the important nutrients. Even soaked used in rabbits with dental problems.

Composition: grass, herbs, and legume plants, dried. The proportion of the individual species is subject to natural fluctuations! Eco-Control-Center DE-ÖKO-001, Germany-Agriculture

Analytical constituents: crude protein 12.9%, crude fat 2.9%, crude fiber 24.1%, crude ash 9.6%, calcium 1.17%, phosphorus 0.23%

Feeding recommendation:

As a supplement/treat daily: Dwarf rabbits/guinea pigs: 3-5 pellets. Large rabbits: 5-10 pellets (fattening rabbits double the amount). Chinchillas: 1-2 pellets.

As a hay substitute: pellets at free disposal.

However, fresh hay, fruit, vegetables, and green fodder should always be offered in addition to the pellets to provide the animals with all the important vitamins.

Product properties

Phase of life	Junior, Erwachsener, Senior
Animal categories	Kaninchen, Hamster, Meerschweinchen, Chinchillas, Nagetiere
Product type	Einzelfuttermittel (Pellets)
Anwendungsart	Innere Anwendung, Fütterung
