Product description

Care product for animals

Care oil for masking animal-specific scent toward crawling and flying insects

insektoVet Combi SpotOn is a skin-care fragrance oil that masks the animal's own odor. The animal is no longer perceived by crawling and flying insects (fleas, ticks, mites, mosquitoes, etc.) as an attractive host worth attacking.

insektoVet Combi SpotOn is a high-quality, skin-care oil, based on cold-pressed Egyptian organic black cumin oil and organic coconut oil. This unique composition is complemented with selected essential fragrance oils that mask the animal's own odor.

Expert tip: **insektoVet Combi SpotOn** is basically waterproof in rain and when bathing in water. However, it should be reapplied after shampooing.

Of course, **insektoVet Combi SpotOn** can be combined with our other **cdVet** products such as **insektoVet Herbal** and **insektoVet Coconut-Black Cumin-Oil**.

Composition: organic coconut oil, organic black cumin oil, jojoba oil, neem oil, geranium oil, lavender oil, manuka oil

Application recommendation: Massage 1 drop from your wetted finger into the skin daily for 3 weeks. **Dog:** in both ear cones or between the shoulder blades and at the base of the tail. **Horse:** near the torso on the insides of the legs as well as at the base of the ear. **Rodent:** only 2 x per week between the shoulder blades. 1 drop corresponds to approx. 50 mg.

Once basic stabilization is achieved, 1-2 applications weekly are sufficient. In case of strong regional infestation of nuisances, the frequency of applications can be increased individually.

Contains lavender oil, citronellol, and geraniol. May produce an allergic reaction.

Anwendung

Über 3 Wochen täglich 1 Tropfen auf die Haut einmassieren.

Hund: In beide Ohrzapfen, zwischen den Schulterblättern und am Rutenansatz.

Pferd: An den Innenseiten der Beine und am Ohrgrund.

Nach Erreichen der Grundstabilisierung reichen 1-2 Anwendungen wöchentlich. Bei starker Zeckenbelastung kann die Häufigkeit erhöht werden.

Zuverlässiger Schutz auf Grundlage von kaltgepresstem **Ägyptischem Bio-Schwarzkümmelöl** und **Bio-Kokosöl**.

Tipp

- ✓ InsektoVet Combi SpotOn ist bei Regen und dem Baden in Gewässern grundsätzlich wasserfest. Nach dem Shampooieren sollte es jedoch erneut aufgetragen werden.

Gegen Lästlinge wie Zecken, Flöhe, Milben, Mücken, Bremsen, usw.
