

PhytoStart Bronchial Powder 15 kg | 15 kg

For the nutrition-related support of the respiratory tract condition and stimulation of feed intake

Product number	10121
Weight	15kg
Length	430mm
Width	200mm
Height	800mm

Product description

Complementary feed (powder) for ruminants, calves, and pigs

For the nutrition-related support of the respiratory tract condition and stimulation of feed intake

The respiratory tract is where most farms have the greatest performance reserves. Optimal respiratory condition and thus optimized respiration have a positive influence on feed conversion and intake. With optimal respiratory condition, the susceptibility to respiratory infections is low.

In nature, the animal would absorb essential oils via the fresh plants. This is hardly guaranteed in the stable keeping of ruminants, calves and pigs. The active substances contained in the essential oils are important for the condition of the respiratory tract and also for digestion. In particular, the cleaning of the respiratory tract is especially important in relation to the high germ and dust load in the stables. **PhytoStart Bronchial Powder** is a matter of course in performance assurance for many farms. It can be used throughout the entire fattening period.

Composition: organic black cumin seed expeller*, sodium chloride

*from controlled organic cultivation. Eco-Control-Center DE-ÖKO-001, non-EU Agriculture.

Additives/kg: Technological additives: bentonite (1m558i) 100 g, clinoptilolite of sedimentary origin (1g568) 100 g. Flavouring compounds: eucalyptus oil 56.0 g, thyme oil 5.0 g, camphor oil (2b130-eo) 2.0 g.

The total amount of bentonite must not exceed the permitted maximum level in complete feedingstuff of 20000 mg/kg of complete feedingstuff. Total quantity of clinoptilolite of sedimentary origin from all sources shall not exceed the maximum content of 10000 mg/kg.

Analytical constituents: crude protein 23.8%, crude fat 10.0%, crude fiber 4,8%, crude ash 23.2%, ash insoluble in HCl 16.3%, sodium 0.065%, lysine 0.84%, methionine 0.42%

Feeding recommendation: *Calves:* ca. 6 g/animal mixed into the feed daily or 600-800 g/t feed. *Ruminants/pigs:* 600-800 g/t feed. The feeding quantity may be increased as required in special situations, such as stabling, stress, and weather changes. 1 tsp. corresponds to ca. 3 g.

The simultaneous oral use with macrolides shall be avoided.

May be used in ecological/organic production in accordance with Regulation (EU) No. 2021/1165. DE-ÖKO-001, QS-ID 4048473937771.

Product properties

Phase of life	Seniors, Adults, Juniors
Special Requirements	Autoimmune, Leistung, Antistress & Calming, Bronchi, Allergy, Respiratory tract, Cough, Lungs, Immune system, Ammonia binding
Composition	Caraway, Eucalyptus, Thyme, Anise, Sage (salvia officinalis)
Animal categories	Cows, Pigs, Poultry
Feed Profile	Feeding, Without additives
Product type	Supplementary feed
Product form	Powders
