Product number	638
Weight	0.1kg
Length	67mm
Width	67mm
Height	119mm

Product description

Animals often also suffer from a diet-related strain of the skin metabolism. Skin and coat, however, have very important functions. They serve as a barrier to external influences such as heat, cold, and other environmental stimuli.

insektoVet Herbal has been developed precisely for this nutritional situation. The contained herbs and especially the variety of natural B vitamins support the skin metabolism dietary-related and thus contribute to a positive development of the skin milieu and odor. Brewers' yeast is a real treasure chest of B vitamins, amino acids, various minerals, and trace elements. Thus, it can have a great influence on the metabolism and can contribute to a significant improvement of the skin milieu.

In cell biological studies it could be shown that the resistance of the skin cells can be enhanced throughout the year by insektoVet Herbal. In particular, the barrier function of the skin cells is strengthened, which also has an important role in the natural regenerative power of the skin.

insektoVet Herbal
supports the skin metabolism
can enhance the skin cells
can contribute to an enhancement of the skin milieu
is an optimal addition to TickEx SpotOn & TickEx Spray

Product properties

Feed Profile	Grain-free, Minerals / trace elements, Feeding, Active & Sport, Vitamins, Gluten-free, Leisure, Breeding
