Product description

The oil extracted from the Inca nut has enjoyed a high reputation in its country of origin, the Peruvian Amazon, for thousands of years. Its balanced, harmonious ratio of omega-3, omega-6 and omega-9 fatty acids cannot be found in any other vegetable oil, and makes Singularis Organic Sacha Inchi Oil to one of the most valuable oils of all. Especially the high proportion of healthy omega-3 fatty acids with almost 50 percent is unsurpassed and a real competition for fish oil, which is often contaminated with heavy metals.

The high digestibility of over 96% makes the heart beat faster even in sensitive dogs and cats. Another outstanding feature is the long shelf-life due to the naturally high vitamin E content. In contrast to 'fishy' oils, Singularis Organic Sacha Inchi Oil is suitable as a valuable feed supplement for every animal species due to its excellent acceptance.
