Width	88mm
Height	230mm

Product description

priVet Vital is a unique combination of herbs, fruit, and vegetables. Due to the optimal combination of ingredients, it contains many vitamins, minerals and secondary plant substances that can support the condition of the digestive organs and are also of particular importance for the detoxification organs. In addition, es contains a variety of natural plant substances that can support the immune system and ensure a shiny and healthy coat/feathers. It is therefore advisable to feed priVet Vital over a longer period (4-6 weeks) before breeding and before shows, since only an optimally supplied and healthy animal will produce the best results.

Support for the liver, kidneys and immune system
 Increasing the performance of your animal
 Support optimal rearing of young animals
 Promotion of a shiny and healthy coat/feathers
