Width	50mm
Height	165mm

Product description

Whether it is the rampaging and playing young dog that falls over its own paws every now and then, or the young foal that cuts a caper in the paddock, or the elderly senior who can't quite get out of his basket or box in the morning. The joints have to do a lot, and every now and then they also have a bad day, and need a little bit of our support. Then how about a supportive, soothing care from the outside. ArthroGreen Pysio Gel is easy to apply, and a boon for tendons, ligaments, and joints.
