Length	226mm
Width	241mm
Height	149mm

Product description

A red cloth for many riders and horse owners are strongly rutting mares. While some mares are just quietly in heat, other horse ladies develop into true shrews. If the reactions of the mares go beyond the normal dimension, this can become a real problem for the rider. The result is often ride ability problems such as resistance to the rider's thigh, bucking, jamming, tailing and tension-related back problems. The behavior towards other horses often leads to inconvenience. Whether aggressive behavior towards box neighbors or crowd members or penetrating behavior to geldings, riding on other mares - a mare extremely in heat brings restlessness in stable community and crowd association and thus annoy two- and four-legged. With its balanced composition on the basis of monk peppers, green oats and a few selected herbs, EquiGreen EstrusRegulat is an ideal complementary feed for very rutting mares.

Product properties

Composition	Raspberry, Green oats, Brewer's yeast, Quick grass root, Pansy, Chasteberry (vitex agnus-castus), Milk thistle, Rosehip, Malt
Phase of life	Seniors, Adults, Juniors
Special Requirements	Health, Antistress & Calming, Hormones, Feeling
