For the daily supply of minerals, trace elements and vitamins for dogs and cats

Product number	216
Weight	0.15kg
Length	67mm
Width	67mm
Height	89mm

Product description

MicroMineral contains 100% purely natural ingredients, which are rich in natural, easily available micronutrients, such as minerals, trace elements, vitamins, etc. Due to their plant origin, the detoxification organs are not further burdened, which allows an optimal, natural micronutrient supply of calcium, magnesium, a whole complex of vital trace elements and alginates thus.

Particularly when feeding ready-made feed, a deficiency situation quickly arises because many substances are damaged, modified, or destroyed by industrial and thermal processing. Synthetic substances cannot completely eliminate this deficiency. Therefore, cdVet MicroMineral should not be missing in any diet. As an addition to dry food, canned meat and also in fresh meat feeding, for natural mineralization and vitamin protection.

Special attention should be paid to an optimal micronutrient supply:

- in growth
- in fur changing
- in training and competition use
- in breeding
- at stress
- at problems with fur and skin
- at older animals
- at metabolism problems and allergies

Possible consequences of nutrient deficiency:

- problems with the fur change
- flaky skin

dull fur
developmental delay
degeneration of bones and joints
weakened immune system
early signs of aging
susceptibility to stress
birth difficulties

Product properties

Composition	Seaweed meal, Brewer's yeast, Grape seed flour, Algae, Malt
Phase of life	Seniors, Adults, Juniors
Special Requirements	Health, Minerals, Internal organs, Earth / Grass
Feed Profile	Minerals / trace elements, Feeding, Vitamins, Without additives, Sugar-free, Leisure, Breeding
Animal categories	Dogs, Cats
Product type	Supplementary feed
Product form	Powders
