High-quality bioavailable nutrient dispenser based on the proven MicroMineral with organic moringa, green-lipped mussel and peat

Product number	647
Weight	0.15kg
Length	67mm
Width	67mm
Height	89mm

Product description

Fit-BARF Mineral Cat has been developed for the daily basic supply of minerals and vital substances in all areas. The natural ingredients, which are rich in micronutrients such as minerals, trace elements, vitamins, humic acids, taurine and others, can prevent deficiency situations. Calcium intake plays a particularly important role when feeding raw meat. The New Zealand greenshell mussel (non-defatted mussel meat) is a natural source of taurine.

Due to the plant-based origin of the micronutrients, the detoxification organs are not further burdened. Fit-BARF Mineral Cat therefore provides an optimal, natural supply of micronutrients.

Excellent source of vitamins, minerals, and trace elements

Natural source of iron - can stimulate blood formation

Gastrointestinal regulation by humic acids

Cell protection through antioxidants

100% natural
