For natural, needs-based feeding of birds with sensitive airways and to promote a strong immune system

Product number	189
Weight	0.0104kg
Length	24mm
Width	24mm
Height	71mm

Product description

The mucus-forming ingredients of BronchialVital Ornamental Bird protectively cover the affected respiratory tracts and support the body's own defense mechanisms. At the same time, the irritation of the cough is soothed and reduced. In addition, the essential oils contained in the herbs and the pure honey ensure a gentle dissolution of stuck mucus, make it difficult for pathogenic bacteria to settle there, and thus facilitate the natural process of coughing up. The contained honey also stimulates the appetite and provides the animal with energy. BronchialVital Ornamental Bird is tolerated by animals of all ages and can be mixed into the food without any problems due to its high acceptance.

Product properties
