Product number	1351
Weight	2.5kg
Length	200mm
Width	200mm
Height	205mm

Product description

Bio Black Cumin sticks can contribute to a positive change in the gastrointestinal tract through feeding. This milieu change takes bacteria and fungi the food basis and can make their settlement in the gastrointestinal tract more difficult, the physiological intestinal flora is strengthened. These positive feeding properties of the sticks are based on the carvone contained in the essential oil. Through the excellent properties of the residual oil and the contained roughage, the natural intestinal flora can be additionally supported. A good intestinal flora can contribute to self-regulation when the immune system is disturbed. In addition, the oils contained can nutritionally support the respiratory condition.

- Fresh black cumin sticks from own organic production
- From premium seeds (Nigella Sativa), original Egyptian organic cultivation
- Very high residual oil content 16 - 17% due to the special cdVet cold pressing process
- Due to this cdVet cold pressing, organic black cumin oil is gently extracted from the seeds and the valuable press cake is produced
- Free of preservatives or other additives
- High proportion of unsaturated fatty acids
- The sticks contain, of course, all the active ingredients, which are also found in the black cumin oil
- Feeding-related support of the respiratory condition

Product properties

Phase of life	Seniors, Adults, Juniors
Special Requirements	Health, Intestines, Stomach, Respiratory tract, Metabolism, Immune system
Product type	Single feed
Product form	Solid
Animal categories	Horses, Dogs
Feed Profile	Feeding, Chewing pleasure, Without additives, Vegetarian, Leisure
Composition	Black cumin
